

# NORTHERN LEHIGH PLAN

## **Your Invited!**

You have been identified as a community leader/influencer by the Northern Lehigh Comprehensive Plan Steering Committee. This Multi-municipal effort brings together the Townships of Heidelberg, Lowhill, Lynn, Washington, Weisenberg, along with the Borough of Slatington to draft the vision, goals and objectives for the area over the next decade and beyond. The current plan was adopted in 2004 and has served our communities well. However, much of its information and research findings reflect the reality of the time, which means it does not fully account for changes in the housing market, traffic patterns, farmland preservation, land development pressures or general population growth.

***Now is the time*** to update the *Multi-municipal Plan for the Northern Region of Lehigh County*. We cordially invite you, as a thought leader and influencer, to participate in one of the upcoming workshops where the Northern Lehigh Plan Steering Committee, in partnership with the Lehigh Valley Planning Commission, will discuss some of the most essential issues in our area.
